ABOUT ME

Passionate full-stack developer with over 3 years of experience building scalable web applications. Specializing in modern JavaScript ecosystems — from React and Next.js on the frontend to Node.js, GraphQL, Fastify, and REST APIs on the backend.

WORK EXPERIENCE

Full-Stack Developer 2023 — 2026

NeyNegar — Online Art Marketplace

Designed and developed a complete online marketplace for Persian calligraphy and visual arts. Built the GraphQL backend with Apollo Server, MongoDB, and the Next.js frontend. Implemented SMS authentication, Zarinpal payment, course management, and a comprehensive admin panel.

👁️ Frontend 🗄️ Backend 🌐 Live

Full-Stack Developer 2026 — Present

Aqua Blue — Pet Shop & Aquarium E-Commerce

Architected and built a modern pet shop e-commerce platform. Backend with Fastify + TypeScript + PostgreSQL using Drizzle ORM, frontend with Next.js 16.
